

Premium Chain Drive Opener

Featuring the Liftmaster 8365 Premium Chain Drive Opener

With its rugged reliability and exceptional all-around performance, the 8365 1/2 HP AC Chain Drive Garage Door Opener is the perfect choice if you want enhanced style, reliability, and the performance attributes of our best-selling drive system ever. It includes 2 remote controls and a keyless entry along with the standard inside wall control and safety sensors.

- Confidently know what's going on at home with MyQ® Technology. It lets you monitor and control your Garage Door Opener and home lighting from anywhere (when paired with the Internet Gateway).
- Receive email or text alerts so you always know the status of your garage door and home lighting.
- Download the MyQ® mobile app for free. No annual activation fee required.
- Compatible with HomeLink®.
- Requires 828LM MyQ Internet Gateway to connect to MyQ Smartphone App.
- Rely on durable and powerful performance with our P3 Motors™, which are specifically built for use in Garage Door Openers.

- Appreciate years of reliable, maintenance-free service from our industrial-strength Chain Drive System.
- Consume up to 75% less power in standby mode.
- Have peace of mind with our Lifetime motor and one-year parts warranties

Liftmaster's February Promotional Giveaway

NEVER COME HOME TO A DARK HOUSE.

No one likes coming home to a dark house. With 2 FREE Remote Light Controls and your new LiftMaster Garage Door Opener, you'll be able to control home lighting right from your smartphone – now there's always a light on when you arrive home. Plus, if you purchase Garage Door Opener Models 8550W, 8587W, 8557W, 8360W, and 8355W by 2/28/17, we'll sweeten the offer even more with a FREE Garage Door and Gate Monitor. It alerts you when you left your garage door or gate open and lets you close it from inside your home.

Liftmaster Opener Featuring Built in Wi-Fi

The all new 8550W Belt drive opener from Liftmaster now features built in Wi-Fi eliminating the need for extra devices. The system is very simple to connect to your home's Wi-Fi and the App is free for iPhone and Android users. Control your garage door from anywhere using the

secure App on your smartphone or on the Liftmaster website.

Know when your door is left open and close it with a swipe of your finger. This model also features an included back up battery, a smart wall control with digital display and the new Timer-To-Close features. The Timer-To-Close can be set to automatically close your door for you after 1-5 minutes so you never have to worry about forgetting to close your door again.

Control Your Garage Door From Anywhere- MyQ Upgrade Kit

Now, any Chamberlain, Craftsman, and LiftMaster® garage door

opener manufactured since 1998 can be controlled with your smartphone, tablet or computer thanks to the new 888LM MyQ® Control Panel and the 828LM LiftMaster® Internet Gateway. The new 888LM control panel takes the place of your old wall console adding new MyQ technology. After pairing the system with the 888LM control and registering the free smartphone app you will be able to control your garage door from anywhere.

The free secure app will send text alerts to your smart phone when the door opens and closes and allows you full control of the door from wherever you are located. If you don't have a smart phone, Liftmaster also offers control through www.myliftmaster.com through any web browser. This upgrade kit is very simple to set up even if you are not familiar with networking. Check out some of the other MyQ products that are compatible with this system.
