

Liftmaster Opener Featuring Built in Wi-Fi

The all new 8550W Belt drive opener from Liftmaster now features built in Wi-Fi eliminating the need for extra devices. The system is very simple to connect to your home's Wi-Fi and the App is free for iPhone and Android users. Control your garage door from anywhere using the

secure App on your smartphone or on the Liftmaster website.

Know when your door is left open and close it with a swipe of your finger. This model also features an included back up battery, a smart wall control with digital display and the new Timer-To-Close features. The Timer-To-Close can be set to automatically close your door for you after 1-5 minutes so you never have to worry about forgetting to close your door again.
