Liftmaster Residential Garage Door Opener Systems

LiftMaster® residential garage door openers offer a broad selection in performance, features, and durability – more so than any other opener brand. All of our models offer the ultimate in safety and security features, and are available with a variety of horsepower levels and drive systems for all types of homes and applications, including those with rooms over the garage or those with heavy doors, as well as a series of openers that require little maintenance.

What is MyQ™ technology?

Built-in revolutionary MyQ™ technology has the ability to communicate, manage and activate other MyQ™ enabled devices in the home. This gives you greater control and security – you can open or close the garage door or turn on or off lights using your smartphone or computer – from anywhere in the world!

The models listed below are commonly stocked by Doorways, Inc.

Other models are available on request.

**8550W Elite Series® DC Battery
Backup Belt Drive with MyQ**

NOW FEATURING BUILT IN WIFI!

Take convenience and safety to a whole new level with the LiftMaster® 8550. The reliable, integrated Battery Backup System guarantees access in and out of your garage, even when the power is out. The opener is also equipped with built-in MyQ™ technology, enabling you to close your garage door or turn lights on or off using a smartphone or computer – from anywhere in the world. And because it features soft start and slow stop to reduce noise when it operates, it is perfect for homes with a room above the garage.
