

DuraCoil OPTIMA, gray, with flat steel slats

RUGGED

DURABLE

RELIABLE

Rugged DuraCoil service doors—with aluminum, steel or stainless steel slats—are made to last. When you want the best, specify DuraCoil.

#### **DuraCoil OPTIMA**

Designed for high-security applications or oversized openings, sturdy 18-gauge slats and structural steel guides combine to make this our strongest rolling service door.

#### **DuraCoil STANDARD**

This full-featured product delivers Raynor reliability and durability to meet or exceed the requirements of daily use. Offered with our widest selection of quality features and options, this model is best suited for most service door applications.

#### DuraCoil BASIC

This 24-gauge product with roll-formed guides is a simple solution for typical applications requiring Raynor quality and durability.

#### **DuraCoil SELECT**

When facility design or environment requires unique materials, this model is offered exclusively with aluminum or stainless steel slats and options to meet specific design performance.

NOTE Contact factory for special sizes.

WARRANTY DuraCoil service doors carry:

WARRANTY DuraCoil service doors carry a I-year limited warranty. See your local Raynor Dealer for complete details.

## MODEL OPTIONS AND UPGRADES

# **187 ArmorBrite™ colors.**

Choose your color! Nearly every Raynor rolling door component (curtain slats, bottom bars, guides, hoods and head plates) can be powdercoated in any of 187 colors for an attractive appearance and exceptional durability.

# 2 High-cycle applications.

For years of reliable operation in heavy-use applications such as multi-tenant parking facilities, choose high-cycle torsion springs or the FeatherLite™
Weight Counterbalance System (shown).

# (3) Head plate cover.

Head plate covers are available for an attractive, finished appearance and help to protect your investment by keeping out dust and grime.

# 4 Vision panels.

For light transmission and visibility, choose 4" x I" acrylic vision slots for large contour, flat and insulated flat curtain slats. Fenestrated curtains with open 4" x I" slots are also available for flat slat curtains only.

## (5) Pedestrian doors.

Pedestrian doors are designed for convenient entry and to help minimize energy loss.

#### SLAT STYLE OPTIONS

## Flat slats.

The most architecturally pleasing slat profile, flat slats are ideal when weatherseal is used.

# Available in virtually unlimited widths, large contour slats are typically specified for larger-

sized openings.

# Small contour slats.

An excellent choice for smaller opening widths, small contour slats are the best value for opening sizes up to  $14' \times 14'$ .

## Flat insulated slats.

Designed for any application demanding greater thermal efficiency.

## Flat perforated slats.

Engineered for applications where airflow, visibility and security are desired.

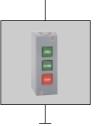

#### PowerHoist operators.

Raynor offers a full line of rugged PowerHoist operators for jackshaft operation.

# Motor cover.

Motor covers are helpful for noise reduction and provide an attractive look.

# Control options.

A variety of control stations, photoelectric eyes and remote activation devices are available.

## ENERGY-SAVING OPTIONS

#### Hood weatherseal.

A reinforced neoprene sheet rests on the curtain to minimize air infiltration. A header brush seal is also available.

## Vinyl guide seal.

A vinyl extrusion decreases energy costs and reduces air infiltration by sealing the side of the door when closed.

#### Brush guide seal.

A brush-type seal increases the energy efficiency of curved slat doors. Gray Tan Stainless Steel Aluminum

For DuraCoil door color options, please refer to the chart at left.

**Every DuraCoil door** is built for superior performance and includes the features listed below. For additional options, please see the inside pages.

## Curtain hood.

DuraCoil service doors feature a full-width, 24-gauge steel hood to protect your investment. Optional on DuraCoil BASIC.

# Counterbalance system.

A smooth-running, torsion-springoperated system is packed into each barrel assembly. Industrial head plates and bearings provide long cycle life.

#### Curtain.

Each DuraCoil curtain is assembled with durable, heavy-gauge slats in a variety of materials and gauges.

#### Guides and end locks.

Rugged structural steel angle guides provide maximum support for curtain slats. Zinc-plated, malleable cast-iron end locks prevent lateral movement of the curtain slats.\*

(1)

(2)

(4)

## Bottom bar.

PAYNOR

Curtain bottoms are structurally reinforced with a minimum of two steel angles for maximum durability. A bottom astragal is included on all doors.

(5)

(3)

#### Security locks.

To keep your building secure, manually-operated DuraCoil doors are equipped with slide locks.

\*DuraCoil BASIC doors are supplied with roll-formed guides and stamped metal end locks.
